
Emirates Post extends postal services

2019/01/02 09:49 στην κατηγορία INTERNATIONAL

Emirates Post is now offering residents living in apartments mail delivery to one's home either once or twice a week – based on subscription package.

MyHome services were previously only available to residents of a villa.

Obaid Mohammed Al Qatami, Acting Chief Commercial Officer at Emirates Post Group, commented: “At Emirates Post, we are constantly looking to strengthen our user experience and bring efficiencies into the postal service sector by delivering happiness, convenience and anticipating the future needs of our customers.

By investing in our outbound and inbound postal and logistical solutions, we will continue to provide value-added services that will support individuals as well as the operational needs of businesses.”

“We aim to provide convenient solutions that improve quality of life with the introduction of MyHome service to our customers across the Emirates allowing them to receive post at their doorstep and offering an extended subscription renewal of up to three years, and we encourage all our customers to maximize on this opportunity” he added.

He further explained that the MyHome service delivers all postal items to residences once a week for an annual fee of 750 dirhams, and if the customer wants the option of sending and receiving post twice a week, they should choose the MyHome Plus service for an additional 500 dirhams annual fee.

Companies can also opt to have their post picked-up and delivered directly to the registered office location by subscribing to Ezimail.
