
Maersk enters partnership with Novo Nordisk on global cold chain logistics

2020/12/29 10:33 στην κατηγορία INTERNATIONAL

A.P. Moller – Maersk announced the signing of a logistics agreement with Novo Nordisk from 2021.

The three-year agreement on cold chain logistics covers transportation including ocean services and inland logistics.

“We are proud to be chosen as one of Novo Nordisk’s main logistic companies. Transporting pharmaceuticals on a global level is a demanding task with various complexities that require flexible and resilient supply chains as well as digital and eco-friendly solutions. This achievement showcases the rapid transformation of A.P. Moller – Maersk as a modern end-to-end logistics company with fully controlled assets,” said Vincent Clerc, Executive Vice President and CEO Ocean and Logistics. A.P. Moller – Maersk.

One of the largest pharmaceutical companies in the world, Novo Nordisk has chosen Maersk’s ECO Delivery to reduce the carbon footprint in transportation. The initiative uses sustainable biofuel to power selected Maersk-vessels and helps Novo Nordisk to make progress towards its ambitious sustainability goals.

The global agreement will enter effect as of 1st April 2021.
