
DFDS completes acquisition of Lucey Transport Logistics

2022/10/17 15:31 στην κατηγορία INTERNATIONAL

In July 2022, DFDS entered an agreement with Lucey Transport Logistics, LTD to acquire the company, strengthening DFDS' logistics offerings in Ireland. On 30 September, the companies completed the acquisition.

“We are excited about the integration of Lucey Transport Logistics into DFDS and to welcome our new colleagues into the DFDS Group,” says Niklas Andersson, EVP and Head of DFDS Logistics.

“The strategic fit between DFDS and Lucey means we will be the leading asset-based logistics provider on the Island of Ireland. With the acquisition, we are creating a full platform of services for customers and connecting them to the expansive DFDS network spanning 21 countries in Europe and Turkey.” The acquisition is part of DFDS' growth strategy to develop and expand its network and continue to offer improved solutions to customers. By combining Lucey's domestic offering with DFDS' European route network, the Danish ferry and logistics company will be able to offer Lucey's existing customers from the FMCG and packaging sectors access to international transport services in an increasingly competitive transportation and logistics market.
